				9

SMD Vela Navis classified 91 for this classification.

Vela Navis is an extremely well-sprung cow with tremendous capacity. The point losses for Vela are primarily in the direction we prefer. Pin width, length, and spring of rib all maxed out. Combined with the outstanding fore and rear udder attachment, very strong median suspensory ligament and heavy muscling in the loin and rump make her one of the cows we judge against for continuing improvement of our herd.
