SMD Mira Ceti classified 87 for this classification.

Mira Ceti is a powerfully built cow with great strength and substance. Mira as the classification suggests is incredibly well sprung and deep. She does sacrifice some femininity in consequence of her power and capacity but as a result of these qualities is our easiest keeper, maintaining top condition year round without supplementation through calving and lactation. Qualities not without value in a producing homestead cow. A quirk of our naming convention is that Mira Ceti is a star that is known as a “variable red” – Mira carries red (e) from her sire Big Mac and has the occasional red calf.
